## WHAT IS THE YMCA ADVENTURE GUIDES PROGRAM?

The YMCA Adventure Guides program is for boys and girls from Kindergarten through sixth grade who, along with their fathers and/or mothers, want that special parent/child relationship. Children and their parents are organized into small circles units. Meetings vary from circle to circle and are held once a month during the school year. During these meetings, the members construct crafts, tell stories, play games and sing. In addition to their regular circle functions, once a month the circles are all invited to an Expedition Event.
